

Collaborative Imaging recognized as one of the Best Places to Work in Healthcare in 2020

Collaborative Imaging has been selected by Modern Healthcare as one of the 2020 Best Places to Work in Healthcare. The complete list of this year's winners, in alphabetical order, is available at [ModernHealthcare.com/bestplaceslist](https://www.modernhealthcare.com/bestplaceslist). Modern Healthcare will publish a special supplement featuring a ranked list of all the winners along with the October 12 issue.

"It has been an especially trying year for the world, and healthcare in particular as COVID-19 ravages our communities and your workplaces," said Aurora Aguilar, Modern Healthcare's editor. "But the organizations recognized on this year's list rose to the top and continued to be a source of strength for their teammates. They have seen their colleagues fall ill to the virus and struggled with the economic impact of the pandemic. The loyalty and trust between employers and their workers is being put to the test now more than ever. We congratulate the Best Places to Work in Healthcare for continuing to serve their workforce and communities during such an unprecedented time."

"For a CEO, one of the biggest accolades is knowing we have a happy and motivated team, especially given Collaborative Imaging is always questioning the status quo and constantly embracing a different way of doing things. Our team is by far our biggest asset, and I could not be prouder for our team members' voices to have carried us to this award," said [Dhruv Chopra](#), CEO of Collaborative Imaging. "I am humbled that, despite being in the early stages of our organization's

growth, our team recognizes the value and appreciation we have for each member – we are truly one very hard working and happy family.”

“In just a short time, by leveraging the right balance of technology and automation into our workflow processes, we have been able to protect and grow our physician practices whose future had previously been at risk from private-equity backed consolidators,” continued Chopra. “This has resulted in us not only having a highly motivated physician base, but also one that is able to provide additional value to our healthcare partners and an unsurpassed level of patient care. None of this could have been realized without the dedication and efforts of our team.”

This award program identifies and recognizes outstanding employers in the healthcare industry nationwide. Modern Healthcare partners with the Best Companies Group on the assessment process, which includes an extensive employee survey.

Collaborative Imaging will find out their ranking on the Best Places list and be celebrated at the 2020 Best Places to Work in Healthcare awards gala taking place virtually on October 8 in conjunction with the Workplace of the Future Conference. Information on the award celebration and conference is available at ModernHealthcare.com/WOTF.

About Collaborative Imaging

Founded in 2018, and led by [CEO Dhruv Chopra](#), Collaborative Imaging is a radiologist owned alliance devised from forward-thinking physicians in conjunction with technology, business and industry experts to address the challenges of consolidation, degradation in patient care, physician burnout

and operational inefficiencies. Collaborative Imaging has upward of 400 physician members in six states and continues to grow and support groups throughout the country. Strategic benefits include revenue cycle management oversight, radiology workflow solutions, after hour and sub-specialty coverage and administrative support such as credentialing, contract negotiations, and 24/7 IT helpdesk and support operations to radiology practices throughout the United States. Chopra's vision for Collaborative Imaging is to create a platform that allows practices to eliminate duplicity that exists between them, thereby allowing efficiencies, cost savings and best practices to be incorporated amongst its partners with the savings, and upside generated to be returned to member groups.
